

Return this form to the Carpe Diem office as soon as your domestic flight(s) is/are finalized

AIRLINE INFORMATION

Please forward us your airline arrival information as soon as it is arranged. This is vitally important information to facilitate the smooth meeting of everyone at the airport. If a student's domestic flight is late or delayed, we will need to know about it in order to facilitate their connection with the group's international flights. We can track this information if we have all of your flight info! If you are planning on arriving early to visit family or friends, please let us know that too. We would appreciate any contact information should we need to be in touch with you.

Please do not book your domestic flight until the international airfare has been arranged. Due to constraints by the airlines and flight rules and changes, our actual departure date may vary by a day from the scheduled itinerary.

When your domestic flight details are finalized, please send them to us. You are welcome to send us an electronic copy of your domestic flight information is that is more convenient.
